

PhD Position (f/m) in Operations at the University of Mannheim, Germany

The Chair of Production Management (<http://stolletz.bwl.uni-mannheim.de/>) in the Area Operations at the Business School of the University of Mannheim invites applications for a **PhD-position**. The chair's research focuses on the development of algorithms for the performance analysis and optimization of deterministic and stochastic systems both in manufacturing and services.

The main responsibility of the position is to plan and conduct research projects while working collaboratively with faculty, staff, and students. Other duties include teaching and administrative support.

The successful candidate has an excellent background in (applied) mathematics, Operations Management, Operations Research, Management Science, or Industrial Engineering. Individuals with exceptional skills in **stochastic modeling** or **optimization algorithms** are especially encouraged to apply. All candidates are expected to demonstrate written and oral fluency in English.

The University of Mannheim Business School is Germany's premier business school and provides an outstanding, international research environment. The University of Mannheim is an equal opportunity employer. Qualified women are therefore particularly encouraged to apply. Applicants with disabilities are treated with preference given comparable qualification.

For further information, please contact Professor Raik Stolletz (Stolletz@bwl.uni-mannheim.de). In order to apply, please send a detailed curriculum vitae, along with a brief cover letter motivating your interest, to Professor Raik Stolletz (Stolletz@bwl.uni-mannheim.de) before August 15th 2016. The starting date is flexible.
